3500 Greystone Dr. Apt #171 | Austin, Texas | 78731

EDUCATION

The University of Texas at Austin

Major-Relevant Coursework:

CS312 Introduction to Programming
CS314 Data Structures
CS311 Discrete Mathematics
M340L Linear Algebra
SDS321 Introduction to Probability and Statistics
CS429 Computer Architecture
CS439 Operating Systems
CS105 PHP and SQL

Business Foundations Program (BFP) Coursework:

ACC310 Foundations of Accounting
FIN320 Foundations of Finance
MIS302 Foundations of IT Management
LEB320 Foundations of Business Law and Ethics
MAN320 Foundations of Management and Organization Behavior

SKILLS

Photoshop

HTML

CSS

Javascript

Other Skills:

Word, Excel, Powerpoint
C, Java

PROJECTS

Personal Website

www.stephensp.com

Personal website for myself and for potential recruiters. The website will be an ongoing and constant reflection of the skills I have and will pick up in the course during my focus on web development languages, technologies, and trends.

Mock Auction Website

spring-2016.cs.utexas.edu/cs105/ssp0929/wireframe/index.xhtml

Project website for a PHP/SQL web development course I am currently undergoing. The project loosely follows industry standard guidelines involving usecases, wireframes, simulated client feedback, and a step by step iteration from mock wireframe to final product.

Incremental Game

github.com/ssp0929/Incremental-Game

Small javascript-based incremental game I am working on. For examples of incremental games, please visit reddit.com/r/incremental_games.

Please check my github for other projects.
